

Technical Advisory Committee
Alternative Technology Subcommittee

February 3, 2009

Members present: Bob Zinn, Don Shirley, Mike Snyder, Mike Erdman, Chuck Schwenner, Bryan Kozikowski

Guests: Gary Eichhorn, Dave Schultz, Les Rhoumaki, Ian Nelson, Pam McMillan, Amanda Stage, Barb Chenier, Mark Prevost

1. Mark Prevost presented different types of alternative technologies including: the Delta Eco-Pod, Zoeller Fusion, Bio-Microbics Fast, Multi-flo, Nayadic, Scat Filter, Hoot System, Puraflo-peat filter, Sludge hammer (also known as White Knight, and Remediator), Orenco Advantex, single pass and re-circulating sand filters, and Delta Whitewater. Mr. Prevost explained how the technologies worked, maintenance requirements, and approximate costs of the systems.

Mr. Prevost also discussed the process that Wisconsin uses for approving alternative technologies and improvements he would like to see to the process. Mr. Prevost suggested we look into what Florida has in place for reviewing and approving alternative technologies.

2. Next meeting: February 10, 2009 via videoconference @3:00 PM EST
