

Technical Advisory Committee
Alternative Technology Subcommittee

March 5, 2009

Members present: Mike Snyder, Chuck Schwenner, Dave Holmgren

1. Mike S. reported that the meeting minutes are now posted on both County websites.
2. The meeting minutes from the February 10, 2009 meeting were reviewed and approved.
3. Mike reported that Don Shirley and Mike Erdman had contacted him to let him know they were unable to make today's meeting. Mike S. asked both of them if they had any comments on the proposed four sections of the Technical Manual. Mike E. said he was OK with them the way they were. Don was going to review them and get back to Mike S. if he had comments. Mike S. never heard from Don.
4. The committee reviewed the draft Repair and Replacement of Existing OSTDS. Dave suggested copying a sentence from the draft Write-off Section into this Section having to do with the intent of this section. Mike S. will make the change. The committee approved this Section going to the Board of Health.
5. The Committee reviewed the draft Write-off of an Existing OSTDS Section. It was suggested to make a reference back to the code for the definition of an "existing OSTDS". Mike s. will make the change. The committee approved this Section going to the Board of Health.
6. The Committee reviewed the draft Driven Well Point Approval Guidelines Section. It was suggested to be more specific in the definition of Primary Maximum Contaminant Level. Mike S. will make a reference as to where these levels come from. The committee approved this Section going to the Board of Health.
7. The Committee reviewed the Southern Menominee County Short Cased Water Well Approval Guidelines. No changes were suggested. The committee approved this Section going to the Board of Health.
8. Next meeting: March 19, 2009 via videoconference @3:00 PM EST.
